IWIF wins Applied Systems interface partner award for third consecutive year

(Towson, Md.) – For the third consecutive year, IWIF Workers’ Compensation Insurance has been awarded the Interface Partner Award from insurance technology company Applied Systems. The award is presented to insurance carriers that offer agents a rounded complement of interface transactions including download, real-time inquiry, and real-time policy rating.

“In order to stay competitive and provide excellent service, agency and policyholder information must travel faster and be available for agents on demand,” said George Matthews, IWIF executive vice president. “That’s why IWIF makes the necessary investments in technology. Its’ always our goal to make doing business with IWIF as efficient and easy as possible.”

The award was presented to IWIF during Carrier Day at the 2011 TENCon, the Technology, Education & Networking Conference, hosted by Applied Systems’ Client Network (ASCnet) on September 20, 2011.

Established in 1914, IWIF is the leading provider of workers’ compensation insurance in Maryland. IWIF is a self-supporting insurance company that operates solely from premium and investment income.

Applied Systems Inc. develops, sells and supports insurance agency and broker management systems and provides services for accounting, customer, policy, claims management, and all related agent and broker functions.
